The Frankenstein Ball

Saturday 4th November 2017

It all started as a competition between Lord Byron, John Polidori, Percy & Mary Shelley to write the best horror story. Mary thought on this for days until, in her dreams came the idea of a scientist who created life and was horrified by his creation, this was the beginning of Frankenstein.

Frankenstein is perfectly infused with gothic elements and romanticism, which is why Castle Goring is the ideal setting for such a ball, that and the fact the Castle Goring was the home of Mary Shelley.
